“ Thank you for being such an amazing friend to my mom. In the kind of world we live in today, everyone should have a friend like you by their side. Although you are no longer physically here, I know you will always be with her, watching over her, listening when she needs someone to talk to and laughing right beside her. I feel lucky to have gotten to know you, you were such a bright light in this world and now a twinkle in this sky. You did more good in your life than many people who live twice as long, and we all know you'll be taking good care of all those fur babies up there until they are reunited with their mommies and daddies! Thank you for being you!
